4. California Proposition 65 – 19 March 2021

California Proposition 65, officially known as the Safe Drinking Water and Toxic Enforcement Act of 1986, was enacted in November 1986. Proposition 65 protects the state's drinking water sources from being contaminated with chemicals known to cause cancer, birth defects or other reproductive harm, and requires businesses to inform individuals in the State of California about possible exposures to chemicals known to the State of California to cause cancer or reproductive toxicity and described in the <u>Proposition 65 List</u>.

Some MCC's products may contain one or more chemicals lists in California Proposition 65. These chemicals are embedded in the homogeneous material and are not intended to expose any person during normal product use. Accordingly, California Proposition 65 "clear and reasonable" warning requirements not apply for MCC products.
